

WOMEN PLAYING POLITICAL GAME

Suffrage Convention Which Has
Just Closed in Washington
Is Significant.

MAY CARRY FIGHT INTO
CONGRESS OF DAUGHTERS

Extreme Suffragists Defend the
"Hissing" Incident With
Peculiar Argument.

BY CONSTANCE CARRUTHERS.

WASHINGTON, April 16.—The convention of the National Women's Suffrage association, which ended today, and the National Congress of Daughters of the American Revolution, which convenes Monday, have brought more prominent women to this city than any other event which has transpired in the United States, and today the national capital would, if a census had been taken, show itself the temporary abiding place of a large fraction of the well known women of the land.

As the suffragists wound up their stormy convention and clouds began to form, heralding trouble in the ranks of the Daughters of the American Revolution when their congress assemblies on Monday, developments have come to pass which show the public at large that the women are rapidly becoming adept in the game of politics.

The spirit of progress has already caused two sets of insurgents—one in the Woman's Suffrage association and the other in the Daughters of the American Revolution. The insurgents are formidable in each organization.

In the suffrage association they defend the hissing of President Taft, and in the Daughters of the American Revolution they are fostering the movement to oust Mrs. Matthew Scott, the president.

Taft Glad It's Over.

Among the members of the cabinet and congress there are many who fear that, in some indirect way they might have been drawn into the suffrage controversy, and tonight there were audible sighs of relief, marking the close of the convention. Even President Taft, whose presence had given rise to the trouble, evidenced a feeling of secret joy that the convention had drawn to a close. The president evidently feared that the continual stirring of the hissing incident would have some political effect.

It was feared and openly commented that the wives and daughters of congressmen and cabinet members might be drawn into the interesting suffrage fight, which would in turn involve them. For a time it was actually feared that something might grow out of the Taft incident which would be construed into a campaign matter and might be an issue in some of the state campaigns next fall, especially in the western where woman suffrage prevails.

President Taft already the center of a political storm the new clouds of his troubles. It is said that Mrs. Taft, the western woman, pushed forward by Mrs. Maclean, the congresswoman, and the suffragists, were all in a row, and that the president's wife was in a state of mind to make a speech at the convention.

The congress of the Daughters of the American Revolution, which is now in session, is also a source of trouble. The congress is now in session, and the Daughters of the American Revolution are also a source of trouble.

Rapid Change in Main Street Skyline

Rapid progress has been made on the erection of steel for the new Kearns building on Main street the last week, the steel for the fourth story having almost all been placed in the last two days. Practically all the steel has been delivered by the railroads and, with two shifts of structural workers on the job, it is expected that a record for Salt Lake will be made.

BALLINGER'S ACT IN GOOD FAITH

Assistant to Secretary of Interior
Defends the Conduct
of His Chief.

By Associated Press.
WASHINGTON, April 16.—Edward C. Finney, assistant to the secretary of the interior, continued his testimony today before the Ballinger-Pinchot investigating committee. He was questioned further about official acts of Mr. Ballinger and insisted the secretary had acted in good faith in turning over the Cunningham claims to Assistant Secretary Pierce.

There was a full attendance of the committee, as an important question was to be decided. Attorney Brandeis requested yesterday that he be allowed to defer cross examination of Mr. Finney and other subordinates of Mr. Ballinger until he had an opportunity to examine the secretary himself. The committee appeared to be divided on the question, so action on it was postponed until today.

Attorney Vertrees examined Mr. Finney as to various matters which had been discussed by witnesses for the prosecution. It has been claimed that Secretary Ballinger modified a contract with power companies using water from Lake Tahoe in California and Nevada so as to give the company better terms. Mr. Finney said every contract relating to the reclamation service.

Mr. Finney also replied to the criticisms of Secretary Ballinger by Director Newell and Chief Engineer Davis of the reclamation service.

These witnesses declared Attorney General Wickersham held the "co-operative certificates," or "Garfield currency," to be illegal because he had been led to believe there was no money in the reclamation fund, whereas some \$2,000,000 was available.

Mr. Finney said that when the matter first was presented to the attorney general both Messrs. Newell and Davis were writing that there was no money on hand for new projects of any sort.

He said also that after the opinion had been rendered Newell complained that the statement of facts to the attorney general was not a fair one and that he believed that if the reclamation service had been allowed to present the matter the opinion would have been different.

It was agreed then that a new case should be presented to the attorney general, continued the witness, and so a complete statement prepared by Mr. Newell was included in the papers on which a second opinion was asked. The second opinion confirmed the first one.

Mr. Finney was cross examined by Attorney Brandeis, who said he would defer some of his questions until after the committee ruled as to whether he would cross examine witnesses after Secretary Ballinger had been heard.

The men it is not necessary for them to listen. They can quietly stand by and listen. They can quietly stand by and listen. They can quietly stand by and listen.

STORM GENERAL: DAMAGE HEAVY

Continued from Page One.

rushing along at fifty-two miles an hour shortly after 10 o'clock, which carried the rain.

Wind Causes Wreck.

By Associated Press.
MANCHESTER, Ga., April 16.—When the wind struck Woodland, near here, five cars on a sidetrack were blown over to the main line, and a moment later a freight dished into them, making kindling wood of the cars and tearing up the track for 100 yards. More than forty houses, it is reported, were wrecked from their foundations, and the occupants in many cases had narrow escapes from death or serious injury.

Heavy Snow in Texas.

By Associated Press.
EL PASO, Tex., April 16.—The Sacramento mountains and the Sierra Blanca to the east of here, were white with snow today, and reports from the upper and lower El Paso valleys, from the Mesilla valley, from the Pecos and Carlsbad, tonight all tell of ice this morning and immense damage to fruit, gardens and alfalfa.

Praises Oregon Apples.

By Leased Wire to The Tribune.
WASHINGTON, April 16.—The virtues of the famous Oregon apple were discussed tonight by John Barrett, director of the Bureau of American Republics at the meeting of the Oregon society of Washington. Mr. Barrett prepared a careful address and said that one sure way to get rich was to go to Oregon and raise apples.

ADVERTISING AGENCY STAFF INCREASED

ORR YOUNG, Mgr. Copy Dept.,
Giles-McAllister Adv. Agency.

E. V. SIMPSON, Mgr. Art Dept.,
Giles-McAllister Adv. Agency.

Another chapter in the history of the Giles-McAllister Advertising Agency was written during the past week, when two more members were added to the staff. The demands made upon the firm for advertising service have outgrown the capacity of the force heretofore employed, and it became necessary to increase the staff.

The two new members are thoroughly competent and experienced men. Mr. E. V. Simpson, who takes charge of the art department, is possibly the most widely known commercial artist in the state. His work has caused favorable comment from men who are capable of judging commercial art, and his acquisition by the Giles-McAllister agency will doubtless prove valuable. Mr. Simpson will have personal charge of the department of art and engraving, recently established, and will specialize upon commercial illustrating and furnishing cuts and engravings.

Mr. Orr Young will have charge of the "copy" department, which deals with the preparation and writing of advertisements. For the past year, Mr. Young has been advertising manager

CORT THEATERS TO BE TRANSFERRED

Rich European Theatrical Manager
to Take Over Playhouses
on Western Circuit.

By Leased Wire to The Tribune.
NEW YORK, April 16.—Vandeville war in the United States, with the battleground over the Cort circuit of theaters in the west, is in view, if Oswald Stoll, the rich European theatrical man perseveres in his intention of invading the United States with a \$25,000,000 theatrical company.

Mr. Stoll owns a chain of music halls across England, and his sudden determination to become an American manager is believed to be due to the action of Martin Beck, the American who is establishing a circuit of foreign playhouses abroad.

Mr. Stoll opened negotiations for the control of the Cort circuit, and it was reported on Broadway today he had been assured that Mr. Cort would transfer his playhouses for the consideration offered by Mr. Stoll. Mr. Cort has theaters in Salt Lake City, Seattle, San Francisco, Tacoma, Los Angeles, Denver and other western cities. Not long ago the Shuberts attempted to get control of the Cort circuit, although both sides denied that negotiations had been opened.

GIRL OF SIX YEARS OUTRAGED, SLAIN

Revolted Crime Revealed by
Finding of Little Corpse
in Chicago Barn.

By Leased Wire to The Tribune.
CHICAGO, April 16.—Six-year-old Kazimierz Derwalski, who has been missing since Thursday afternoon, was found murdered this afternoon in a barn near the home of her father, 3411 Derwalski, 1461 Tell place. Evidence was found showing that the child probably had been held a prisoner somewhere else for twenty-four hours, tortured, strangled and her lifeless body placed in the barn.

Three suspects were arrested a couple of hours after the body was found by a playmate. They were taken from a wagon at Milwaukee avenue to the Rawson street station to be questioned. The child, but 6 years old, went out Thursday afternoon with three pennies which her mother had given her to buy some candy, and did not return.

The murder was discovered by a playmate of the little girl, who was playing in the alley and entered the barn in a game of hide and seek.

Inspector Stephen K. Healy of the West Chicago avenue station took charge of the investigation and put a score of detectives at work on the case.

A Good Record.

Twenty-seven students of Henager's Business College have been placed in good positions in the past thirty days. This is a record that is hard to beat.
